NOT JUST A ONE MINUTE WONDER

Unlike other competitor brands whose bones are simply coated with flavouring, the material used in a TastyBone is infused with flavouring using our unique process. This means our bones permanently keep their lip-smackingly tasty flavour.

MMM...

SIZE ME UP

We've got something for every dog, from the tiniest toy breeds to the larger breeds. And to make it easier to decide the perfect size for each breed, here's our handy size guide:

Labrador
Pointer
Shar-Pei
Springer Spaniel
Staffordshire Bull Terrier

NYLON TRIO BONE TOY RANGE

BRAAI INSPIRED

FLAVOURED TO THE CORE

THEY'RE BIG ENOUGH AND TOUGH ENOUGH, EVEN FOR YOU.

Packed with flavour and exceptionally tough, the TastyBone Nylon range is our tried and tested range that keeps even the most vigorous chewers chomping for days. They satisfy every bit of a dog's urge to gnaw, and the uniquely infused braai flavours allow your dog to enjoy classic South African favourites such as Boerewors, Lamb Chop and Braai Chicken. Plus, they taste just as lip-smackingly good from start to finish.

Rest assured, with a TastyBone firmly gripped in their mouth, dogs shouldn't be chewing up anything else!

TAIL WAGGINGLY GOOD!

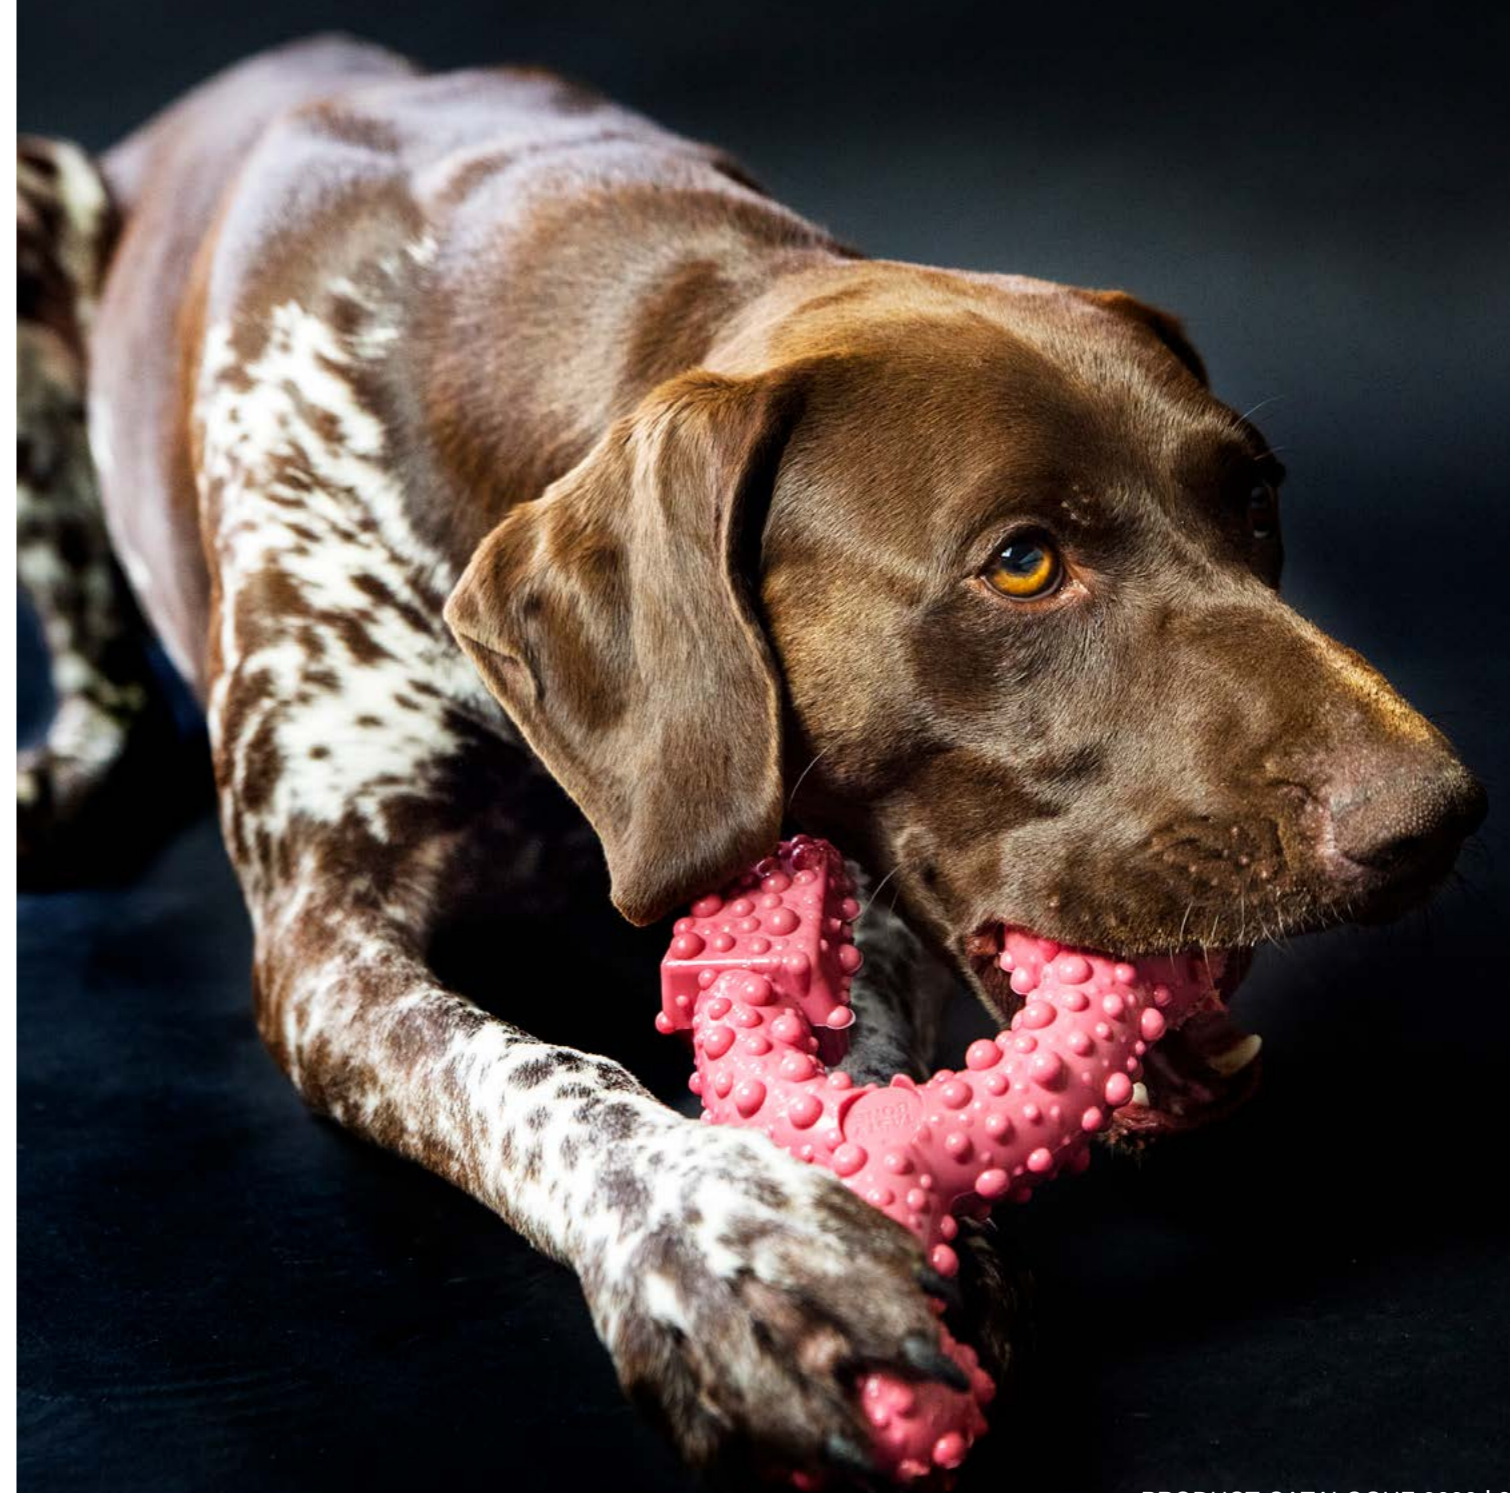

BOEREWORS FLAVOUR NYLON TRIO BONE

Triple the fun and, very knobbly, the Trio Bone's flavour packs a punch!

It's triple the fun and very knobbly. Like all of our nylon chews, this TastyBone product has been tested on the most vigorous of chewers. Made from 100% virgin nylon, it is guaranteed to last. Uniquely infused with irresistible flavours right through to the core, your dog will never get bored, as the flavour will last for the lifetime of the bone. With every bite your dogs gums and teeth become stronger and healthier, protecting against infections, tooth loss and vets fees.

Size	Unpacked dimensions (mm)			Product code
	Length	Width	Height	
TOY	30	70	100	820310
SMALL	40	95	130	820311
LARGE	57	133	180	820312

LAMB CHOP NYLON TRIO BONE

With a 100 day guarantee, our Trio Bones are guaranteed to last, or your money back!

It's triple the fun and very knobbly. Like all of our nylon chews, this TastyBone product has been tested on the most vigorous of chewers. Made from 100% virgin nylon, it is guaranteed to last. Uniquely infused with irresistible flavours right through to the core, your dog will never get bored, as the flavour will last for the lifetime of the bone. With every bite your dogs gums and teeth become stronger and healthier, protecting against infections, tooth loss and vets fees.

FAQS

Q: ARE NYLON TASTYBONES STRONG ENOUGH FOR ALL DOGS?

A: Yes, our Nylon range is suitable for all adult dogs, no matter what their jaw strength. It is of course the responsibility of the dog owner to ensure that they choose the right sized chew for their dog. Owners should choose a product larger than their dog's mouth. Once a TastyBone becomes smaller than a dog's mouth it should be removed and disposed of.

Q: CAN TASTYBONES BE CLEANED?

A: Yes, Nylon TastyBones can be cleaned using tepid water.

Q: WILL TASTYBONE REDUCE IN SIZE?

A: Yes, over a period the bone will reduce in size. As a dog chews the Nylon bones, small rice sized pieces will naturally shave off. These pieces are completely safe for dogs to ingest and will pass through their system without causing harm. If and when the bone becomes smaller than the dog's mouth it should be removed immediately and disposed of. Dogs should always be supervised when enjoying any TastyBone.

Q: IS IT NORMAL FOR MY DOG'S GUMS TO BLEED WHEN CHEWING ON A NYLON BONE?

A: Yes, in some cases bleeding may occur. Like humans, dog's gums will bleed if there is a build-up of tartar on the teeth. Bleeding will reduce the more the bone is chewed, and oral gum hygiene improves. Should you be concerned please contact your vet.

Q: MY DOG'S POO HAS CHANGED COLOUR, IS THIS NORMAL?

A: Yes, when the dog is chewing on the TastyBone products, small shavings will pass through the digestive system and will reappear when the dog next poos.

Q: WHAT IF THE DOG HAS AN ALLERGY?

A: TastyBones are perfect for dogs with allergies as there is no wheat, dairy, additives or meat. The flavours of the bone are made from 100% herbs and spices.

Q: WHAT IF THE DOG IS OVERWEIGHT?

A: TastyBones are perfect for dogs that need to lose weight. They are made from 100% nylon, human grade synthetic flavouring made out of herbs, spices and vegetable dye, meaning they contain zero calories.

Q: WHAT IF A DOG GETS BORED OF ITS TASTYBONE?

A: All of our bones have flavouring that will last the life of the bone. The flavour and smell of our bones are not always detectable to humans, and it is the saliva in a dog's mouth which helps to bring out the flavour. Sometimes a dog may not show interest in the bones or a particular flavour. Many customers have left the bone around the house and found that the dog has suddenly later decided that it is interested. Dogs are ruled by their noses, so a suggestion to bring out the smell of the bone is to pop it into a bowl of warm water to reactivate the smell.
